

## Biofilm Beware

Looking to get more out of Ultrasonic Scaling?

### Course Description:

Elevate your practice with an evidence-based approach to the contemporary use of ultrasonic instrumentation across the spectrum of preventive and periodontal care that focuses on biofilm removal and disruption for the reduction of inflammation. Embrace all the benefits of ultrasonic technology AND the importance of appropriate insert tip selection and sequencing.

### Course Objectives:

Upon completion of this course, participants will be able to:

- Identify the benefits to removal of biofilm on all patient presentations.
- Identify the benefits of powered instrumentation.
- Describe the process for appropriate insert/tip selection and sequencing based on clinical assessment.
- Understand best practices for aerosol management when using ultrasonic scaling.
- Identify when necessary to replace worn ultrasonic inserts and how to best care and maintain them for effective and efficient clinician outcomes.
- Employ evidence-based research to increase the use of power instrumentation as the primary method of biofilm removal during patient care.

**DATE**

June 15, 2023

**TIME**

6:00 - 8:00 PM

*Dinner & Lecture*

**LOCATION**

**The Key Room**

1385 N. Hamilton Pkwy,  
Novato, California, 94949
